

CENAC Action Items from June 26, 2013

Action Item	Response	Status
1. A request was made by a committee member for a breakdown of complaints in the restricted hours (12:30 a.m. and 6:30 a.m.)	Updated report for complaints by runway during the restricted hours attached.	Completed.
2. Feedback received from committee members for proposed Noise Reports: <ul style="list-style-type: none"> <li>• Create a map of Federal Ridings and display noise complaints and callers by each riding.</li> <li>• Create a preferential runway utilization graph for the restricted hours.</li> <li>• Report on standardized time frames such as monthly, quarterly and annually.</li> <li>• Report on noise metric on a monthly basis.</li> <li>• Consider reporting ratios for example; number of complaints per thousand movements</li> </ul>	Feedback from CENAC has been incorporated into a series of revised reports.	<p>In the last meeting, we introduced some samples of new reports we are looking to produce.</p> <p>We are still working to address some of the recommendations. We will work to have some revised reports to share at the November 27 CENAC meeting.</p>
