Subject: RE: CENAC

The portable noise monitoring results from Cherry Hill park were presented at the June 6th CENAC meeting. The results were posted on the CENAC page of our website. They can be found here:

<http://www.torontopearson.com/en/aboutpearson/noise/cenac/#>

We will send you the data from the permanent noise monitoring site nearest to Tanya's house. I do not have that data right now, but it will follow. Robyn, could I ask that you provide this to Councillor Fonseca, copying me?

I am happy to have the correspondence attached to the agenda and brought to the meeting.

Thanks and if you need anything more, please let me know.

Good Morning Toby,

Further to last night's CENAC meeting, I would like to receive the data from the permanent monitoring system located closest to Tanya McCallion's house and the temporary system at Cherry Hill. I would also request all correspondence received from residents about noise be attached to the Agenda and brought forward to CENAC.

Chris
