

Community Sub-Committee

Objective

The objective of the Air Quality Study Community/CENAC Sub-Committee is to:

- Meet with the project team to review and understand project scope and findings
- To serve as a communicators about the study to their respective communities/constituencies
- Provide advice and expertise to the GTAA Air Quality Study to ensure that industry best practices are being met
- Provide an opportunity for the general community to receive information, ask question and engage in dialogue concerning scientific and technical concepts necessary for informed discussion

Committee Composition

The Sub-Committee includes:

- 3 CENAC Members
- Representatives from both the Toronto and Peel Boards of Health
- Representatives from both the Toronto and Peel Environment Offices
- Airline Representative
- Toronto Pearson Employee Community Representative
- Representatives from surrounding communities (Toronto, Mississauga & Brampton)
 - Responded to call for participation
 - Live within a 8 km radius of airport property
 - Are connected to their community and have networks to disseminate information and bring in feedback from their constituents.
